Notes

Thank you for downloading!

It makes me feel all warm and fuzzy knowing you are planning on storing this in your ever expanding typography collection!

I trust you will enjoy my typeface as much as I have in creating it and would very much like to see the outcomes of its usage. So please do tweet me, poke me, behance note me or however else the people of today communicate.

If you do wish to pass some loose change to me in the form of a monetary donation drop me a note. This will not only fund my coffee & haribo* addiction, the much appreciated boost in funds will help me to create many more typefaces in the future. Finally for copywrite reasons other confectionary is also available.

Usage & Distribution

Duster is free for personal & commercial use.

It may not be sold, manipulated, edited, or redistributed without direct written consent.

License Printing

By deciding not to print this document containing white text on black (**Evil Laugh Here**) you have not only saved a prime resource in a single sheet of paper, but your printers black ink!
