How to use Neon Effect action on Photoshop?

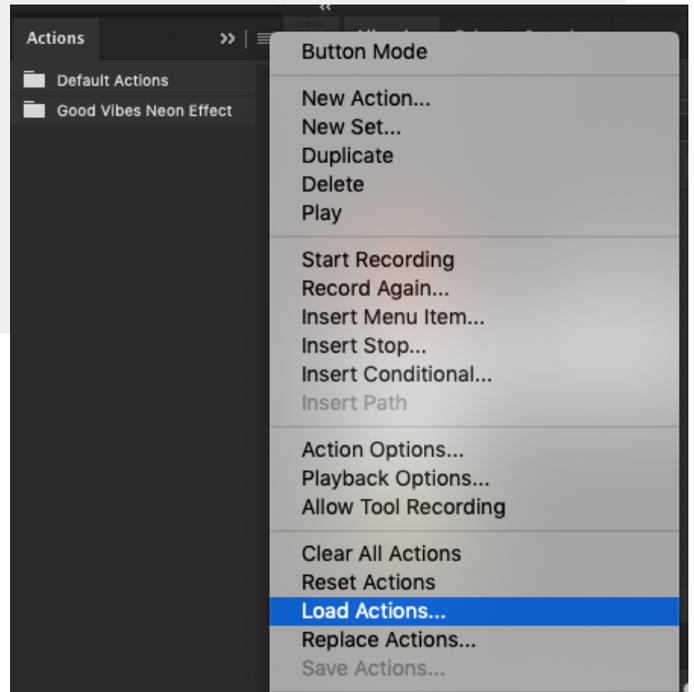

1. Open your Photoshop application and start type using Good Vibes font

A screenshot showing the words "GOOD VIBES" in a clean, white, blocky font. The background is dark and features the same faint geometric shapes seen in the first image.

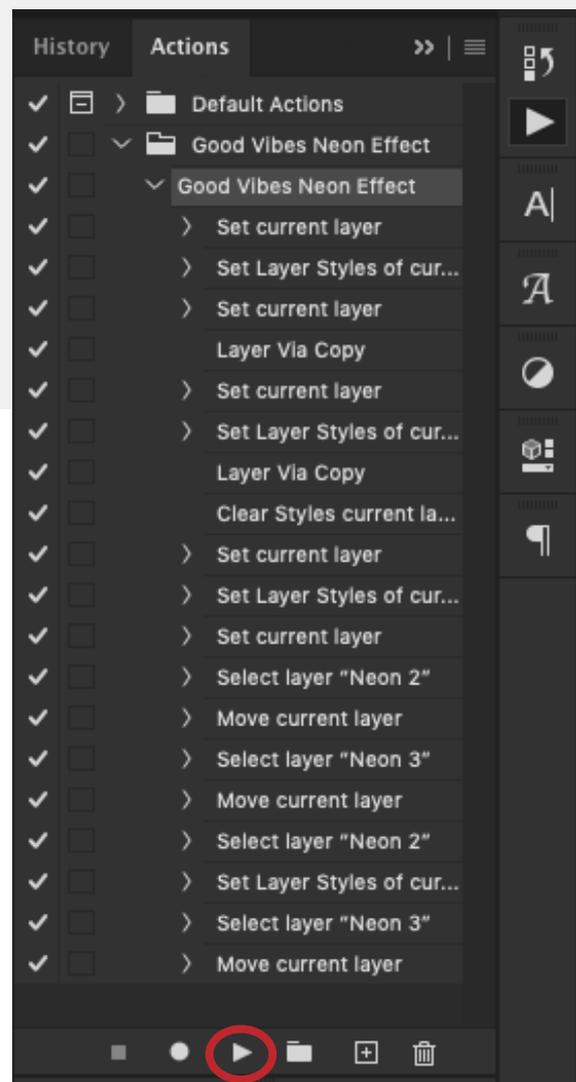

2. Change your type layer name with "neon 1" and then open the Action window from menu Window->Action

A screenshot of the Photoshop Layers panel. The top tabs are "Layers", "Paths", and "Channels". Below the tabs are various icons for layer actions. The "Layers" list shows two layers: "neon 1" (with a text icon 'T') and "Background" (with a folder icon). The "neon 1" layer is currently selected and has a green highlight.

3. Click the menu icon from the Action window, choose 'Load Actions' and then locate the **Good Vibes Neon Effect.atn** file.

4. Once you have successfully load the action file, you will see the action folder like the screenshot on the right. Make sure you selected the 'neon 1' layer first (from step number 2) and then click play button below
